**By Ian J. Deary : Intelligence: A Very Short Introduction** artificial intelligence ai also machine intelligence mi is intelligence exhibited by machines rather than humans or other animals natural intelligence ni introduction

invalidation is to reject ignore mock tease judge or diminish someones feelings it is an attempt to control how they feel and for how Intelligence: A Very Short Introduction:

2 of 2 review helpful Not imperative to read By HH The first chapter of this little book is interesting It glosses over Howard Gardner s theories of multiple intelligences as being outside of the scientific mainstream though it does refer readers to Gardner s work This is intriguing given that Gardner s work has been so influential on current American K 12 educational theory and practice Deary begins by noting that int For people with little or no knowledge of the science of human intelligence this volume takes readers to a stage where they are able to make judgments for themselves about the key questions of human mental ability Each chapter addresses a central scientific issue but does so in a way that is lively and completely accessible Issues discussed include whether there are several different types of intelligence whether intelligence differences are caused by genes or the en it is short and extremely readable Journal of Advanced Nursing 2001 About the Author Ian Deary is Professor of Psychology at Edinburgh University
