From Oxford University Press : Philosophy of Mind: Classical and Contemporary Readings the classical theory of concepts is one of the five primary theories of concepts the other four being prototype or exemplar theories atomistic theories theory description of the philosophy of mind of the stoics including the relationship between mind and body perception action theory and emotion Philosophy of Mind: Classical and Contemporary Readings:

2 of 2 review helpful A good Introduction to Philosophy of Mind By Darrion Ansel Burgess The articles go through

the discussion of philosophy of mind fairly chronologically and logically It s funny to see all of the philosophers in this book reference one another s papers which has happened more in this book than any other book I have read for philosophy This gives one a comparative look at the philosophy of mind debate What is the mind Is consciousness a process in the brain How do our minds represent the world Philosophy of Mind Classical and Contemporary Readings is a grand tour of writings on these and other perplexing questions about the nature of the mind The most comprehensive collection of its kind the book includes sixty three selections that range from the classical contributions of Descartes to the leading edge of contemporary debates Extensive sectio By far the best selection of readings in the field The hard to find are represented Huxley as well as the often neglected Hill Yablo This is the best of all possible anthologies in the philosophy of mind Don A Merrell Arkansas State University
