0 of 0 review helpful Fascinating read By Kevin Beal I ve recently become a big fan of John s work and this book is perhaps even my favorite so far It s nice to get some clarifications and some new terms to describe the concepts you are probably already getting familiar with if you ve read his other work The way John ties intentionality in with language and with institutional reality connected a ton of dots fo The renowned philosopher John Searle investigates the nature of social reality How do institutions such as money marriage and government arise from the mere power of words And how do mind language reason and freedom come into being from the mindless meaningless particles that make up the physical universe stimulating and vigorous Colin McGinn New York of Books The present book may be recommended to newcomers to Searle s philosophy as a lively introductory overview of many of his current research themes and of some of his past research achievement
