Among the classics of the history of philosophy the *Scienza nuova* New Science by Giambattista Vico 1668 ndash 1744 was largely neglected and generally misunderstood during the author s lifetime From the nineteenth century onwards Vico rsquo s views found a wider audience and today his influence is widespread in the humanities and social sciences The New Science is often taught in courses at colleges and universities both in philosophy and Ital Vico s New Science of the Intersubjective World delivers a comprehensive treatment of Vico which is neither too detailed and technical nor too superficial The book gives a clear picture of what Vico wanted to say where he might have been wrong
