By Antonio Damasio : Self Comes to Mind: Constructing the Conscious Brain when you find your true self you open yourself to infinite possibility where there is no limit to the amount of joy peace and success you can experience

the brain is an organ that serves as the center of the nervous system in all vertebrate and most invertebrate animals the brain is located in the head usually close

2 of 2 review helpful Illuminating Mind Consciousness By Bruce Lindgren This outstanding book lights a lamp on the mind and consciousness It is a milestone not a finish line Antonio Damasio writes with a wonderful clarity that cuts through technical neuroscience to make it readily available to a broad swath of readers For readers with rusty knowledge of neuroanatomy open the appendix first 3 of 3 review helpful A leading neuroscientist explores with authority with imagination and with unparalleled mastery how the brain constructs the mind and how the brain makes that mind conscious nbsp Antonio Damasio has spent the past thirty years researching and revealing how the brain works Here in his most ambitious and stunning work yet he rejects the long standing idea that consciousness is somehow separate from the body and presents compelling new scientific evidence From Publishers Weekly As he has done previously USC neuroscientist Damasio Descartes Error explores the process that leads to consciousness And as he has also done previously he alternates between some exquisite passages that represent the best popular sc
