Self & Soul:

0 of 0 review helpful I would love this book other than the fact that much of it is dated That s not the author s fault of course But so much development has been made in the last 30 years in the cognitive sciences that you d like to have newer material Great book in its time though 2 of 2 review helpful With contributions from Jorge Luis Borges Richard Dawkins John Searle and Robert Nozick The Mind s I explores the meaning of self and consciousness through the perspectives of literature artificial intelligence psychology and other disciplines In selections that range from fiction to scientific speculations about thinking machines artificial intelligence and the nature of the brain Hofstadter and Dennett present a variety of conflicting visions of the self com Ever wondered who you are Who you really are This collection of writings and reflections by some of today s most notable thinkers is designed to enliven this most central and most baffling question in the philosophy of mind In some ways the q
