By Thomas McCarthy : Race, Empire, and the Idea of Human Development the formation and early development of the sun and earth chapter s ummary orthodox hypotheses for the beginning of the universe human stupidity irrationality self deception political correctness pc taboos dogmas religion make even the intelligent blind

irrational quot;stupidquot; Race, Empire, and the Idea of Human Development:

In an exciting new study of ideas accompanying the rise of the West Thomas McCarthy analyzes the ideologies of race and empire that were integral to European American expansion He highlights the central role that conceptions of human development civilization progress modernization and the like played in answering challenges to legitimacy through a hierarchical ordering of difference Focusing on Kant and natural history in the eighteenth century Mill and social D With a first systematic account of racisms and penetrating criticisms of developmental schemes this brilliant and beautifully written book is a milestone in the Frankfurt tradition of critical social theory It provides at the same time a pathbreaking analy
