By Francesco Guala : Understanding Institutions: The Science and Philosophy of Living Together science from

latin scientia meaning "knowledge" is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and early modern philosophy in the western world begins with thinkers such as thomas hobbes and ren descartes 1596 1650 following the rise of natural science Understanding Institutions: The Science and Philosophy of Living Together:

Understanding Institutions proposes a new unified theory of social institutions that combines the best insights of philosophers and social scientists who have written on this topic Francesco Guala presents a theory that combines the features of three influential views of institutions as equilibria of strategic games as regulative rules and as constitutive rules Guala explains key institutions like money private property and marriage and develops a
