1 of 1 review helpful A game changer in Rand studies By Michael Richard Brown Rand s 1936 novel We the Living stands at the beginning of her fiction career and in some ways is her most surprising work Meticulously crafted from her own experience during the terror of Soviet Russia in the 1910s and 1920s it was her most widely reviewed on its original issue and served notice that a major talent had arrived Critical praise Ayn Rand remains a truly significant figure of modern philosophy Her unique vision of a world in which man relying on reason acts wholly for his own good is skillfully developed and illustrated in her most famous novels Atlas Shrugged and The Fountainhead But Rand s first novel We the Living With his edited collections of essays on Ayn Rand rsquo s novels Professor Mayhew has set a new standard for scholarship on these important and works which have too often been ignored by academia Ess
