in the centuries since rene descartes said i think therefore i am philosophy and science have independently pursued a larger understanding of laws of consciousness as devised from contemporary psychology of freud jung houston and maclean
Infinite Mind: Science of the Human Vibrations of Consciousness:

8 of 9 review helpful An Early Study on the Human Energy Field By Dr Peter Fritz Walter I found Infinite Mind by Valerie Hunt only recently while it rsquo s not a new book It was published in 2000 but the research it is based upon dates back to the 1970s But that does in no way turn down or diminish the importance of this book In the contrary it shows that every thorough research needs decades to really condense in A billiant overview by the true pioneer scientist of the study of human vibrations Her discovery of the physical and emotional happenings in the mysterious energy we call the mind is ground breaking
