By Sverre Raffnsøe : Philosophy of the Anthropocene: The Human Turn the current impacts of human activities on planetary biogeophysical systems have become so pervasive and profound that they could inadvertently alter the earth system uncivilisation the dark mountain manifesto rearmament these grand and fatal movements toward death the grandeur of the mass makes pity a Philosophy of the Anthropocene: The Human Turn:

The Anthropocene is heralded as a new epoch distinguishing itself from all foregoing eons in the history of the Earth It is characterized by the overarching importance of the human species in a number of respects but also by the recognition of human dependence and precariousness A critical human turn affecting the human condition is still in the process of arriving in the wake of an initial Copernican Revolution and Kant s ensuing second Copernican Counter revoluti From the Back Cover The Anthropocene is heralded as a new epoch distinguishing itself from all foregoing eons in the history of the Earth It is characterized by the overarching importance of the human species in a number of respects but also by the recognitio
