Many historians consider the Peace of Westphalia which ended the Thirty Years War in 1648 to mark a watershed in European international relations. It is generally agreed that Westphalia brought to an end more than a century of religious conflicts and marked the beginning of a new era in which secular power politics was the prime motivating factor in international relations and warfare. The purpose of this volume is to question this assumption and reconceptualise the r. This volume of essays contains much that is of interest and showcases a wide range of methodological thematic and geographical approaches. It suggests the formation of a new historiographical consensus and provides a springboard for further discussion.
