This book makes the first volume of Eugen Rosenstock-Huessy's *Soziologie* available in English for the first time since its 1956 publication in German. Rosenstock-Huessy argues that social philosophy has favored abstract and spatially contrived categories of social organization over temporal processes. This preference for space thinking has diverted us from recognizing the power of speech and its relationship to living on the front lines of life. About the Author: Eugen Rosenstock-Huessy (1888–1973) was a German polymath who taught at universities in Germany before immigrating to the United States in 1933, where he subsequently taught social philosophy at Dartmouth College. Wayne Crista
