By Charles Joseph Stivale PhD : The Two-Fold Thought of Deleuze and Guattari: Intersections and Animations

The Two-Fold Thought of Deleuze and Guattari: Intersections and Animations:

French philosophers Gilles Deleuze and Felix Guattari worked together extensively from the 1960s into the 1990s and the resulting intersections of their different sensibilities and modes of knowing fueled powerful alternatives to Marxian and psychoanalytic orthodoxies. Yet readers approaching Deleuze and Guattari's works are often frustrated by the paucity or unfamiliarity of specific examples that might clarify their complex arguments. This timely volume animates their thought. From Library Journal: French philosopher Gilles Deleuze and psychiatrist Felix Guattari wrote a number of influential books together that criticized psychoanalysis from a radical perspective but their abstract style has proved a stumbling block to many readers.
