turned consciousness hacker he envisions a present and future where science and technology support psychological
What is Reality?: The New Map of Cosmos, Consciousness, and Existence (A New Paradigm Book):

0 of 0 review helpful Twenty first Century Concepts about Reality By Johnny Various authors collaborated in this book by writing essays on the true nature of reality Those essays correspond to Ervin Laszlo s map of reality from scientific and non scientific perspectives The essays I enjoyed the most were in Part 2 One of these is The In Formed Cosmos by Jude Currivan who has impressive scientific credentials in addi Ervin Laszlo s tour de force What is Reality is the product of a half century of deep contemplation and cutting edge scholarship Addressing many of the paradoxes that have confounded modern science over the years it offers nothing less than a new paradigm of reality one in which the cosmos is a seamless whole informed by a single coherent consciousness manifest in us all Bringing together science philosophy and metaphysics Laszlo takes aim at acce Is there a spiritual dimension to our lives Is there purpose behind the creation of the universe beyond space and time Laszlo rsquo s map of reality challenges the materialistic view pushing mainstream science to explore beyond its existing boundaries
