4 of 4 review helpful I give this 5 Stars because I think it pretty much sums up the secrets of the universe By Mark A Shemwell I am a Freemason that is on a quest for esoteric wisdom and occult knowledge so this is a must have in my library Thank God this book isn t too many pages the things that are written within this book have to be read several times before fully understood I give this 5 Stars because I think it p An occult classic Since its first publication in 1908 The Kybalion Hermetic Philosophy by Three Initiates has been in constant demand by students and investigators of the Secret Doctrines It is a modern addition to the body of work devoted to Hermes Trismegistus an icon of ancient teachings that reveal the path to self transformation In this revised edition we have corrected many editorial issues inherent within the original text creating a clearer presentation
